Total revenues for the first quarter of 2019 were RMB235.3 million (US\$35.1 million)^[1], representing a 20.1% increase over the first quarter of 2018. The increase in the first quarter of 2019 was primarily attributable to the 101 F&M hotels new addition to our network, the addition of a new L&O hotel and the conversion of three F&M hotels to L&O during the third quarter of 2018, improved RevPAR for both F&M and L&O hotels as well as contribution from membership growth; and was partially offset by the renovation of seven L&O hotels during this quarter and the conversion of one L&O hotel to F&M during the fourth quarter of 2018.

The year-over-year increase in the first quarter of 2019 was primarily attributable to RevPAR growth of 2.1%, moderate sublease revenue growth, the addition of a new L&O hotel during this quarter and the conversion of three F&M hotels to L&O since the Third quarter of 2018; and was partially offset by the renovation of seven L&O hotels during this quarter and the conversion of one L&O hotel to F&M in the fourth quarter of 2018.

101 hotels in the first quarter of 2019 as compared to 80 hotels opened in the first quarter of 2018. The 20.6% increase from the first quarter of 2018 in recurring franchisee management fees and others was primarily due to RevPAR growth of 2.5% as well as growth in central reservation system ("CRS") usage fees, annual IT and marketing fees and hotel manager fees, which in turn resulted from the increased number of hotels and hotel rooms in operation.

Operating margin in the first quarter declined to 47.5%, compared to 58.7% a year ago. same quarter of 2018.

Cash flow. Operating cash inflow for the first quarter of 2019 was RMB122.2 million (US\$18.2 million)^[1], primarily due to improved operating performance across our hotel portfolio. Investing cash outflow for the first quarter of 2019 was RMB106.5 million (US\$15.9 million)^[1], which was attributable primarily to changes in short-term investments, and partially offset by purchase of property and equipment and other investments, mainly including short-term investments and long-term deposits. Financing cash outflow for the first quarter of 2019 was RMB197.6 million (US\$29.4 million)^[1], which was attributable primarily to RMB208.0 million distributed to shareholders.

Recent Developments

In 2019, we intend to develop more hotels under the Wumian and GreenTree Apartment brands to meet the taste of young business travelers. During the first quarter, one Wumian hotel was under construction. GreenTree Apartment aims to provide long-term apartment rental services to urban white collars, especially newcomers to cities. Different from a standard mid-scale hotel, our apartments provide a more family-friendly living space and more community space. As of March 31, 2019, we opened 2 apartment hotels, of which one is L&O. For the first quarter of 2019, we added 8 more apartment hotels in our pipeline, and we plan to add total 30 apartment hotels into our pipeline during the rest of this year.

Yibon contributed one million paid members after the launch of our membership integration with them during March 2019. This year, we will continue to launch our membership integration with Argyle.

M&A and strategic investments are key growth strategies for GreenTree and the Company completed a number of strategic initiatives during the first quarter of 2019. First, on January 18, 2019, the Company invested in China Gingko Education Group Company Limited, or Gingko, a public company listed on the Hong Kong Stock Exchange ("HKSE") that had approximately 10,000 students enrolled in its university studying accredited 4 years full time BA/BS degrees all related to hospitality during the 2017/2018 school year. Gingko is currently ranked as China's No.1 hospitality university by the "Gaosan Web Association", a website with introductions to and rankings of universities in China. We will work together to cultivate professional talent for us and the hospitality industry in China.

Second, on January 28, 2019, the Company announced a strategic investment to become a major shareholder in Argyle. The Argyle hotel network consists of eight mid-scale and upscale brands, with footprints mainly in South West China, South East China, and Southeast Asia. Argyle's highly distinguished brand portfolio and geographic coverage are highly complementary to GreenTree's business.

Third, on March 11th, 2019, the Company acquired 4.95% in Zhejiang New Century Hotel Management Co., Ltd., or New Century, a company also listed on the HKSE. New Century operates and manages 150 hotels, ranging from mid-scale to upscale brands, with over 34,000 hotel rooms in 22 provinces. The two companies will explore opportunities for future strategic cooperation.

Fourth, on May 1, 2019, the Company announced an acquisition agreement to acquire a 70% equity stake in Urban Hotel Group. The Urban Hotel Group is a leading franchised hotel operator in China with strong brand portfolio and geographic coverage in China. It has more than 600 hotels in economy to mid-scale segment in Eastern and Northern China. The company plans to complete the transaction subject to customary closing conditions.

Adoption of New Revenue Recognition Accounting Standards

The Company adopted Accounting Standards Update 2014-09, Revenue from Contracts with Customers (Topic 606) on January 1, 2019 on a full retrospective basis in the condensed consolidated financial statements. As such, prior period results have been adjusted to reflect the adoption of ASU 2014-09.

The most meaningful impacts of the adoption of ASU 2014-09 are as follows:

Under previous guidance, initial one-time franchise fee was recognized when the hotels opened for business and the Company had fulfilled its commitments and obligations. Upon adoption of new revenue standards the one-time franchise fee will be recognized over the term of the franchise contract.

Under previous guidance, the Company adopted the incremental cost model to account for membership program. The estimated incremental costs, net of the reimbursement received from the franchisees, are accrued and recorded as accruals for membership program as members accumulate points and are recognized as cost and expense in the accompanying consolidated statements of comprehensive income. Under new revenue standards, membership program is considered a separate performance obligation and the consideration allocated to the membership program will be recognized as revenue upon point redemption, net of any cost paid to the franchisees and other third parties.

Guidance

For the full year 2019, the Company expects growth in total revenues of 20-25% from 2018.

The guidance set forth above reflects the Company's current and preliminary view based on our estimates, may not be indicative of our financial results for the full year ended December 31, 2019 and is subject to change.

Use of Non-GAAP Financial Measures

We believe that Adjusted EBITDA and core net income, as we present it, is a useful financial metric to assess our operating and financial performance before the impact of investing and financing transactions, income taxes and certain non-core and non-recurring items in our financial statements.

The presentation of Adjusted EBITDA and core net income should not be construed as an indication that our future results will be unaffected by other charges and gains we consider to be outside the ordinary course of our business.

The use of Adjusted EBITDA and core net income has certain limitations because it does not reflect all items of income and expenses that affect our operations. Items excluded from Adjusted EBITDA and core net income are significant components in understanding and assessing our operating and financial performance. Depreciation and amortization expense for various long-term assets, income tax and share-based compensation have been and will be incurred and are not reflected in the presentation of Adjusted EBITDA. Each of these items should also be considered in the overall evaluation of our results. Additionally, Adjusted EBITDA and core net income does not consider capital expenditures and other investing activities and should not be considered as a measure of our liquidity. We compensate for these limitations by providing the relevant disclosure of our depreciation and amortization, interest expense/income, gains/losses from investments in equity securities, income tax expenses, share-based compensation, share of loss in equity investees, government subsidies and other relevant items both in our reconciliations to the corresponding U.S. GAAP financial measures and in our consolidated financial statements, all of which should be considered when evaluating our performance.

The term Adjusted EBITDA and core net income is not defined under U.S. GAAP, and Adjusted EBITDA and core net income is not a measure of net income, operating income, operating performance or liquidity presented in accordance with U.S. GAAP. When assessing our operating and financial performance, you should not consider this data in isolation or as a substitute for our net income, operating income or any other operating performance measure that is calculated in accordance with U.S. GAAP. In addition, our Adjusted EBITDA and core net income may not be comparable to Adjusted EBITDA and core net income or similarly titled measures utilized by other companies since such other companies may not calculate Adjusted EBITDA and core net income in the same manner as we do.

Reconciliations of the Company's non-GAAP financial measures, including Adjusted EBITDA and core net income, to the consolidated statement of operations information are included at the end of this press release.
