**Total revenues** for the fourth quarter of 2020 were RMB289.8 million (US\$44.4 million) <sup>[1]</sup>, representing a 0.1% year-over-year increase. The slight increase was primarily due to the sustained recovery in hotel operations from the impact of COVID-19, as well as the revenue contribution from the newly opened L&O hotels. Total revenues increased from RMB266.9 million in the third quarter, a 8.6% sequential increase, which was mainly attributable to a RevPAR growth from 120 RMB to 124 RMB. Total revenues for the full year 2020 were RMB930.0 million (US\$142.5 million) <sup>[1]</sup>, representing a 14.8% decrease.

**Total revenues from leased-and-operated hotels** for the fourth quarter of 2020 were RMB76.1 million (US\$11.7 million) <sup>[1]</sup>, representing a 11.0% year-over-year increase. The increase was primarily due to the RevPAR increase of 0.6% compared to one year ago, the contribution from L&O hotels of the Urban Hotel Group ("Urban"), as well as the contribution from 10 newly opened L&O hotels in 2020. The revenue increase was partially offset by the reduction and extension of sublease income, and the closure of 4 L&O hotels in 2020. Compared with the third quarter, total revenues from L&O hotels increased by 13.9%, mainly attributable to rising RevPAR and net newly opened 3 L&O hotels. Total revenues from L&O hotels for the full year 2020 were RMB227.1 million (US\$34.8 million) <sup>[1]</sup>, representing a 10.4% decrease.

- **Total revenues from franchised-and-managed hotels** for the fourth quarter of 2020 were RMB207.2 million (US\$31.8 million) <sup>[1]</sup>, representing a 4.6% year-over-year decrease. Initial franchise fees increased by 32.3% year over year, mainly attributable to the gross opening of 199 hotels. The 7.1% decrease from the fourth quarter of 2019 in recurring franchisee management fees and others was primarily due to RevPAR decrease of 3.4%, as well as the reduction in franchise fees and central reservation fees for hotels affected by COVID-19. Compared with the third quarter, initial franchise fees increased by 8.7%, mainly attributable to more hotels opened; recurring franchisee management fees and others increased by 3.1%, mainly due to RevPAR sequential

growth from 120RMB to 124RMB. Total revenues from F&M hotels for the full year 2020 were RMB677.5 million (US\$103.8 million)<sup>[1]</sup>, representing a 18.5% decrease.

## COVID-19 Update

Due to the resurgence of Covid-19 in several provinces and cities like Hebei, Shanghai, and Beijing, our occupancy rate declined in Q4 2020 and January 2021. Occupancy rate was at its lowest during the Chinese spring festival, due to the government's stay-local policy; however, it rebounded quickly, especially after March 16 when people could travel more freely in low-risk zones. With the rollout of the COVID-19 vaccines, most travel restrictions have been lifted. According to the official microblog of the Ministry of Culture and Tourism, the Tomb Sweeping holiday on April 5, 2021 saw 102 million domestic tourists. That represents a year-over-year growth of 144.6%, and 94.5% of the number of domestic tourists in the same period in 2019. By early April, our occupancy rate had recovered to 77.7%, and Revpar recovered to 92.7% of the 2019 levels. By the end of 2020 we had proved to be more resilient, and so performed better than most of our peers.

## Guidance

The guidance set forth above reflects the Company's current and preliminary views based on our recovery speed and may not be indicative of the final financial results for future interim periods and the full year.

## Use of Non-GAAP Financial Measures

We believe that Adjusted EBITDA and core net income, as we present it, is a useful financial metric to assess our operating and financial performance before the impact of investing and financing transactions, income taxes and certain non-core and non-recurring items in our financial statements.

The presentation of Adjusted EBITDA and core net income should not be construed as an indication that our future results will be unaffected by other charges and gains we consider to be outside the ordinary course of our business.

The use of Adjusted EBITDA and core net income has certain limitations because it does not reflect all items of income and expenses that affect our operations. Items excluded from Adjusted EBITDA and core net income are significant components in understanding and assessing our operating and financial performance. Depreciation and amortization expense for various long-term assets, income tax and share-based compensation have been and will be incurred and are not reflected in the presentation of Adjusted EBITDA. Each of these items should also be considered in the overall evaluation of our results. Additionally, Adjusted EBITDA and core net income does not consider capital expenditures and other investing activities and should not be considered as a measure of our liquidity. We compensate for these limitations by providing the relevant disclosure of our depreciation and amortization, interest expense/income, gains/losses from investments in equity securities, income tax expenses, share-based compensation, share of loss in equity investees, government subsidies and other relevant items both in our reconciliations to the corresponding U.S. GAAP financial measures and in our consolidated financial statements, all of which should be considered when evaluating our performance.

The term Adjusted EBITDA and core net income is not defined under U.S. GAAP, and Adjusted EBITDA and core net income is not a measure of net income, operating income, operating performance or liquidity presented in accordance with U.S. GAAP. When assessing our operating and financial performance, you should not consider this data in isolation or as a substitute for our net income, operating income or any other operating performance measure that is calculated in accordance with U.S. GAAP. In addition, our Adjusted EBITDA and core net income may not be comparable to Adjusted EBITDA and core net income or similarly titled measures utilized by other companies since such other companies may not calculate Adjusted EBITDA and core net income in the same manner as we do.

Reconciliations of the Company's non-GAAP financial measures, including Adjusted EBITDA and core net income, to the consolidated statement of operations information are included at the end of this press release.
